

Let me live a life of ease, where lazy daisies roam

Like a Little Bo-Peep, I wanna count sheep till the cows come home

Let me hear the buzz of bees around the honeycomb

Where the daffodils sleep, I wanna count sheep till the cows come home

Making love while the moon shines, can make an old heart new

Making hay while the sun shines, can make your dreams come true

Let me find some peace of mind, the only kind I've known

Where the willow trees weep, I wanna count sheep till the cows come home
